To Whom It May Concern

HEALTH AND SAFETY AUDIT

On behalf of all at SAAAC we would like to thank you for the professional audit carried out at our campus. Janice arrived and did a walk around with us. We were shown areas where we had to improve, which we did within the week.

We did the online course and all four staff members passed well. Janice returned after two weeks and we had completed all the areas that needed attention.

We were provided with the audit report which we will now present to the necessary educational bodies to keep us compliant.

We would really recommend Macrosafe as their fees are fair and a payment plan was provided to us.

We would definitely be using your company in the future again.

Yours sincerely

Wayne Lardner
Chief Executive Officer
