## HEALTH & SAFETY SERVICES

To whom it may concern

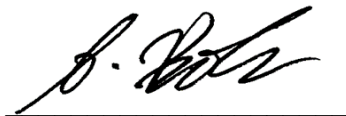

We, RLB Pentad Quantity Surveyors, have been making use of MAKROSAFE Holdings (Pty) Ltd as service provider pertaining to our Health & Safety within our offices across the country.

Since 2017 when we initially started with the implementation of the Health & Safety plan, Makrosafe's service and dedication has been commendable. The team managed to implement and manage our Health & Safety program from initiation all the way to maintaining our Gold status.

Janice Clarke has been an asset to us and is always available to assist and answer any queries. Even more so during the COVID-19 Pandemic and preparing for our return to the office during Level 3 of the lockdown. Janice is pro-active, patient and her turnaround time on queries is remarkable.

We would definitely recommend Makrosafe Holdings (Pty) Ltd. They are efficient, accommodating and professional and we hope to continue the great working relationship well into the future.

Yours sincerely

CHARL BOTHA  
Director
